

1. Software Engineer

Cisco

Scott Taylor

Sr. QA Engineer - Disney Technology Solutions and Services at The Walt Disney Company

I have worked with Myk for the majority of my career. His vast technical knowledge make him very valuable as a developer when planning new projects. He will often take the initiative to lead meetings whether it is a scrum planning meeting or a bug triage meeting. Myk works well with the test team by releasing features early and often, making his code testable by including...**more**

September 8, 2011, Scott worked directly with Myk at Cisco

Rvan Timmons

Software Development Engineer at Amazon.com

Myk is a "get it done" developer and is always thorough and deliberate. Myk can be counted on to bring a project to completion.

August 5, 2011, Ryan worked directly with Myk at Cisco

2. Senior Developer

Pure Networks

John Mevissen

Software Engineer at Google, Inc.

I worked with Myk while he was a web/app developer at Pure Networks. Myk is both technically competent and a good team player who is pleasant to work with. I would very much enjoy working with him again.

October 18, 2007, John worked with Myk at Pure Networks

Joel Hynoski

Engineering Manager at Google

It was a pleasure to work with Myk at Pure Networks. Myk is an incredibly skilled web designer. He takes hold of the most complex tasks and produces work of extremely high quality with a flair for the innovative. He's also a great guy and a real asset to the culture of any workplace.

August 13, 2007, Joel managed Myk indirectly at Pure Networks

3. Developer

Viair

Danny Luedke

Product Marketing Manager at F5 Networks

Myk is very talented web developer. When we worked together Myk was challenged with creating Web UI across many different mobile devices in the early stages of mobile browsers. Beyond Myk's talent of web design, I can not say enough about his character and integrity. I highly recommend Myk.

August 10, 2011, Danny worked with Myk at Viair

Brett Marl

enjoying summer

Always a pleasure to have Myk on the team. He's fast, writes solid code and is always looking to learn the next best thing or improve. In addition to working with Myk at ViAir, I also recruited him to join Pure Networks - as he was the perfect guy for the job we had at hand. I'd hire Myk again in a heartbeat.

August 6, 2011, Brett managed Myk indirectly at Viair

Robert Ingman

Project Manager at Synapse Product Development

I worked with Myk at ViAir on desktop and phone UI for WirelessInbox and he was a pleasure to work with, always. Technically sharp, experienced, and very aware and concerned about user experience, usability, etc. Mike was always willing to accommodate requests and go the extra mile to get stuff done. Friendly, focused, productive, and a great team member.

August 5, 2011, Robert managed Myk indirectly at Viair

Chris Resleff

QA Engineer at Milliman Care Guidelines

Myk was a creative and resourceful developer during our time together at ViAir, consistently bringing insight and skill to his role. He was a pleasure to work with, and I'd do it again, anytime.

August 5, 2011, Chris worked with Myk at Viair

Joshua Drake

Experience Strategy and Design Consultant

Myk was the main web developer I worked with at ViAir (later Visto). I gave him page comps and design specs; he turned them into rock-solid web applications. Of course he writes great code, but what I valued even more as a coworker were his good nature, his integrity, and his dedication to the team.

July 1, 2007, Joshua worked directly with Myk at Viair

4. Network Engineer

Ironlight Digital

Ann Haas (pending Gladstone)

Independent Design Consultant at PandaChief

Myk and I were early employees at Ironlight. We worked together on a variety of websites and I remember our times fondly. He was a great technical lead because he was smart, knowledgeable and could collaborate on how to things could or should work. Together we rolled up our sleeves successfully got things done, and still had fun doing so. It is a testament to any...**more**

Ronald Wagner

Senior Operating Executive - Digital Marketing Services Sector

Myk was one of Ironlight's first hires, and bringing him on was one of the company's best personnel decisions: Myk is extremely bright, hard working and efficient. He is able to strategize, develop and implement solutions to challenging problems, and he was constantly sought after as a sounding board by employees across different functions and expertise. Myk speaks up and...more

5. Web Specialist

Proxicom

Dan Armstrong

Mobile | Financial Services

Myk and I worked together at the dawn of the web within Proxicom and MCI on early websites for major corporate clients. Myk is creative, thoughtful and dedicated to his customers in every respect. A solid technologist, Myk also understands the broader business elements in complex projects and the technical requirements to deliver them.
