

Myk O'Leary

Web Services Engineer @ Cisco

myko@blueneedle.com

10 people have recommended Myk

"Myk is a "get it done" developer and is always thorough and deliberate. Myk can be counted on to bring a project to completion."

— **Ryan Timmons**, *Software Development Engineer, Linksys*, worked directly with Myk at Cisco

"I worked with Myk while he was a web/app developer at Pure Networks. Myk is both technically competent and a good team player who is pleasant to work with. I would very much enjoy working with him again."

— **John Mevissen**, *Software Engineer, Pure Networks, Inc.*, worked with Myk at Pure Networks

"It was a pleasure to work with Myk at Pure Networks. Myk is an incredibly skilled web designer. He takes hold of the most complex tasks and produces work of extremely high quality with a flair for the innovative. He's also a great guy and a real asset to the culture of any workplace."

— **Joel Hynoski**, *QA Manager, Pure Networks*, managed Myk indirectly at Pure Networks

"Always a pleasure to have Myk on the team. He's fast, writes solid code and is always looking to learn the next best thing or improve. In addition to working with Myk at ViAir, I also recruited him to join Pure Networks - as he was the perfect guy for the job we had at hand. I'd hire Myk again in a heartbeat."

— **Brett Marl**, *Founder/VP of Engineering/CTO, ViAir*, managed Myk indirectly at ViAir

"I worked with Myk at ViAir on desktop and phone UI for WirelessInbox and he was a pleasure to work with, always. Technically sharp, experienced, and very aware and concerned about user experience, usability, etc. Mike was always willing to accommodate requests and go the extra mile to get stuff done. Friendly, focused, productive, and a great team member."

— **Robert Ingman**, *Group Program Manager, ViAir Corp.*, managed Myk indirectly at ViAir

"Myk was a creative and resourceful developer during our time together at ViAir, consistently bringing insight and skill to his role. He was a pleasure to work with, and I'd do it again, anytime."

— **Chris Resleff**, *QA Engineer, ViAir*, worked with Myk at ViAir

"Myk was the main web developer I worked with at ViAir (later Visto). I gave him page comps and design specs; he turned them into rock-solid web applications. Of course he writes great code, but what I valued even more as a coworker were his good nature, his integrity, and his dedication to the team."

— **Joshua Drake**, *Interaction Designer, ViAir*, worked directly with Myk at Visto

"Myk and I were early employees at Ironlight. We worked together on a variety of websites and I remember our times fondly. He was a great technical lead because he was smart, knowledgeable and could collaborate on how things could or should work. Together we rolled up our sleeves successfully got things done, and still had fun doing so. It is a testament to any professional's competency, if you want to work with them again. I would work with Myk again in a heartbeat."

— **Ann Haas (pending Gladstone)**, *Designer, Ironlight*, worked with Myk at Ironlight Digital

"Myk was one of Ironlight's first hires, and bringing him on was one of the company's best personnel decisions: Myk is extremely bright, hard working and efficient. He is able to strategize, develop and implement solutions to challenging problems, and he was constantly sought after as a sounding board by employees across different functions and expertise. Myk speaks up and adds to every brainstorm, idea session, and meeting, with relevant and differentiating observations and ideas. We have stayed in touch for many years now, and I would strongly endorse Myk to any company!"

— **Ronald Wagner**, *CEO & Founder, Ironlight Digital*, managed Myk indirectly at Ironlight Digital

"Myk and I worked together at the dawn of the web within Proxicom and MCI on early websites for major corporate clients. Myk is creative, thoughtful and dedicated to his customers in every respect. A solid technologist, Myk also understands the broader business elements in complex projects and the technical requirements to deliver them."

— **Dan Armstrong**, *Senior Producer, MCI Telecommunications Team, Proxicom*, worked directly with Myk at Proxicom
